

# *Firematic* **PATROL**

## **THE PATROL**

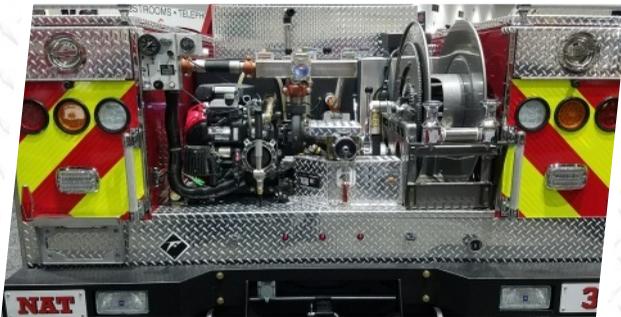

The Firematic Patrol is one of the most versatile vehicles in our line. From urban calls that include medical emergencies and dumpster fires, to rural areas with field and side of the road brush fires, this truck handles it all quickly and easily. With a chassis and setup that anyone can easily be trained on and drive, the compartments still have plenty of space for all the essentials. The Patrol saves your department time, manpower and money.
