

Cairns® 1836 Fire Helmet

WHEN YOU GO IN, WE GO IN WITH YOU.

Cairns® 1836 Fire Helmet

Blending tradition and technology, the MSA Cairns 1836 Traditional Fire Helmet is designed to enhance comfort while making helmet cleanings and inspections faster and easier. Cairns has been proudly manufacturing fire helmets since 1836 and when it comes to head protection, more first responders trust MSA Cairns brand fire helmets than any other.¹ The Cairns 1836 Fire Helmet is the latest innovation in traditional fire helmets from the brand that has been pioneering quality head protection for generations.

Key Features & Benefits

DESIGNED FOR EASY CLEANING

Can be taken apart in minutes for easy inspection and cleaning.

LIGHTWEIGHT & LOW RIDE HEIGHT

One of the lightest and lowest ride height helmets on the market.

NEW ANCHOR BASE

Patent-pending Slide-Lok system means no specific tool is needed to assemble and disassemble the helmet.

ARTICULATING DEFENDER® VISOR

Designed to stow neatly in the fire helmet, new Defender® Visor snaps into place and can be deployed by simply pulling down on the lens.

LARGE D-RING & CLAMP

Design makes storage and hanging of accountability tags easy. The clamp securely fastens the edge trim to the helmet shell.

NEW LEATHER FRONTS & HOLDER DESIGNS

New 5.5" front and holder design option with five new front style choices, customizable with department identification.

QUICK-CONNECT SOFT GOODS & EARLAPS

Few hook and loop fasteners offer excellent durability while quick-connect system enhances ease of attaching or detaching for cleaning.

LASER ENGRAVED LABELING & RFID TAG

Improved helmet label durability and built-in RFID tag enable integration with FireGrid™, simplifying asset management.

Accessories & Offerings

Cushion Liner

- Standard option made with TenCate Tecasafe® Plus TechT4™ material
- Genuine leather option available

Earlaps

- Yellow Nomex
- Black Nomex
- PBI/Kevlar

Eye Protection

- **New!** Articulating, Integrated Defender® Visor (available in Clear or Amber Tuffshield)
- NFPA Bourkes
- 4" Clear or Amber Tuffshield Faceshield
- ESS Goggles

Colors

- **Unpainted Matte Finish:** White, Red, Black, Yellow
- **Painted High-Luster Finish:** White, Red, Black, Yellow, Blue, Green, Orange, Pink

Front Holders

- **Sizes:** 5.5" and 6"
- **Styles:** Silkscreened Maltese Cross, Silkscreened Eagle, Carved Eagle
- Side Accountability Brackets

Leather Front Styles

- **Sizes:** 5.5", 6"
- New Front styles for 5.5"
FRT: 105, 106, 107, and 108
PST: 109 (frame & insert)

Features & Benefits

1 Low Ride Height

- Low ride height helps provide excellent comfort and balance.
- Shell design with low ride height merges tradition and innovation with the durability Cairns users are accustomed to.

2 Newly Designed Anchor Base System

- Patent-pending Slide-Lok system allows for easy disassembly and reassembly for cleaning and inspections.
- **First of its kind on the market!** No specific tool needed for disassembly and reassembly.

3 Large D-Ring & Clamp

- Large D-ring for easy storage or hanging accountability tags.
- Large clamp design grips edge trim securely and aids in preventing displacement.

4 New Front Holders

- New 5.5" options available, or carry on the tradition with 6" front holder options.

5 New Leather Front Styles

- Five new 5.5" style choices added, customizable with department identification.

6 Proven Shell Release System (SRS)

- This unique design feature enables the energy-absorption system to be released from the helmet shell when impacted from below the brim, leaving the energy-absorption assembly on the wearer's head for continued thermal and impact protection.
- With the SRS, if your helmet comes off due to extenuating circumstances, such as a fall through a floor or roof, the impact cap is designed to separate from the helmet shell, but remains on your head.

7 Quick-Connect Soft Goods & Earlaps

- Design of soft goods makes them easy to remove and clean, helping firefighters align with NFPA 1851 guidelines.
- Design uses few hook and loop fasteners for soft goods durability.
- Pre-made holes fit right into suspension.
- Headband and cushion liner designed to help reduce pressure points during prolonged wear, based on customer feedback
- Earlaps quickly connect through series of four quick-connect fasteners, aiding in preventing bunching of earlaps.

Lightweight Design

- One of the lightest helmets on the market, weighing in at only 3.35 lb. / 53.6 oz. (1.52 kg)*.

8 New Articulating Defender® Visor

- Retractable and articulating eyewear system stows neatly, cleanly, and securely inside the helmet.
- Easy removal for cleaning and replacement—requires no tools.

9 Redesigned Soft Goods Utilize TenCate Tecasafe® Plus TechT4™ Material

- “TechT4™ feels just like a t-shirt while offering lightweight, comfortable FR protection where you need it most—next to skin.”
- “Integrated wicking COOLDERM TECHNOLOGY offers enhanced moisture management to promote body temperature regulation and breathability.”
- “The base component of the multi-layer FR system, Tech T4™ offers comfort with no-melt / no-drip next-to-skin protection.”
- From TenCate Website: <https://us.tencatefabrics.com/techt4-mil>

New Expanded & Pivoting Ratchet & Adjustment Arms

- Redesign offers adjustable fit for diverse head sizes, hairstyles, and headwear.
- Allows for more comfortable fit while wearing facepiece and hood.
- Easy adjustment (*front and rear*) and customization for your head size/shape.

New Laser Etching for Labels

- Removes possibility of labels wearing out and/or falling out of helmet.

Adaptable to a Wide Variety of Head Sizes

- New design capable of accommodating 95% of firefighters based on NIOSH anthropometric data and testing.
- Accommodates a 5 $\frac{3}{8}$ –8 $\frac{3}{8}$ hat size.
- Ratchet and dome design allow adjustments for a large range of head sizes.

42% Reduction in Parts

- Compared to Cairns 1010/1044 Fire Helmets.
- Helps with ease of disassembly, resulting in fewer parts and easier repair and maintenance.

Built-in RFID Allows for Integration into FireGrid™ Ecosystem

Benefits of FireGrid Integration include:

- **Lifecycle Management:** Monitor and better prepare for your next gear purchase and needs based on PPE retirements and serviceability.
- **Operating Efficiencies:** Keep track of gear, personnel assignments, and cleanings—all in one, secure location.
- **Standards Compliance:** Maintain compliance with NFPA 1851 by recording required advanced inspection and cleanings.
