

S 789E2

# CUTTER

PART#: 272044000

## Wide opening control for modern vehicle construction

Built to handle today's stronger vehicle materials, the S 789E2 features an 8.07-inch blade opening that allows clean, perpendicular cuts through A- and B- posts. Its wide jaw reduces swing challenges, helping crews maintain control and efficiency on scene. Battery-powered flexibility, plus optional plug-in capability, supports continuous operations when extended cutting is required.
